Duet iPad Point of Sale

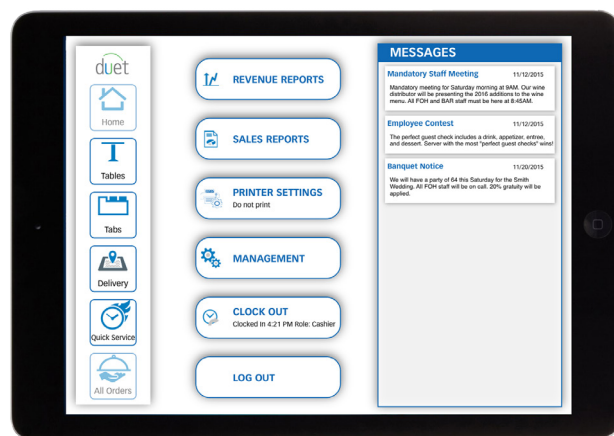

Cloud technology. Service agility. Real affordability.

THE CLOUD-BASED POS THAT'S RIGHT FOR YOUR BUSINESS

Is your restaurant still running on outdated sales technology such as a cash register? Have you been considering making the switch from cash register to a point of sale system? While a fully-equipped traditional POS system still proves to be extremely valuable for restaurants, for some restaurateurs, investing in a traditional POS may be cost-prohibitive. For restaurant owners and operators who want reap the benefits of restaurant POS, a cloud-based restaurant iPad POS may be the perfect solution. If your establishment is still running on a cash register, iPad POS technology can single-handedly change the way you do business.

Perfect for your Table Service or Quick Service establishment, Duet is a tablet/cloud-based POS solution that offers you top-of-the-line technology at an affordable monthly subscription price. Duet can be run either from the cloud or from your on-site back-office server, offering you the best of both worlds. This means that you can continue processing transactions even when the Internet goes down!

RESTAURANT MANAGERS WHO USE THIS POS SOFTWARE BENEFIT FROM:

Alerts for upsell opportunities or order details

Prompts for menu suggestions or cooking instructions.

Smart Management Tools
